

Hotel Gut Brandlhof – an unique offer for European business tourism – from meetings and conferences to multiple incentives

The 4-star Superior Hotel Gut Brandlhof in Saalfelden in the Salzburg Alps is a unique European venue for seminars, conferences, and presentations as well as incentives and events. There are many outstanding features that make the hotel so unique: 200 hotel rooms and suites, 23 conference rooms with space for up to 700 people in one room, and six additional event locations in and around the hotel. These include the relaxing Wilderer Alm meadow located above the hotel on the 450 hectare Brandlhof site, the ÖAMTC Driving Technique Centre with off-road, on-road, and winter courses, the Challenge Zone with a giant swing, 3D hunting bow course, and 5 km snowmobile courses. The attractions for holidaymakers include indoor and outdoor tennis courts and a multiple-use ball court, the 3,000 m² Vivid Spa & Beauty area, a 350 m² fitness centre, and the hotel's own 18-hole golf course directly in front of the hotel with the Golf Club Gut Brandlhof Indoor Golf Performance Centre.

Size, location, and professionalism as well as over 30 years of experience in business tourism

One of the Brandlhof's key strengths is the uniform quality of the facilities available under one roof: 200 hotel rooms and 23 conference rooms with space for up to 700 people in one room. The convenient yet secluded location is another key feature. The professionalism of a company that has been dedicated to business tourism since 1982 makes the Brandlhof the trusted partner of many Austrian and international companies and tour operators. The team's hospitality and enthusiasm that the team exudes as well as the many leisure activities on offer to round off any event are more reasons why many business customers return again and again to our family business in Saalfelden in the Salzburg mountains.

Perfect conference infrastructure

The 23 conference rooms (53 m² to 800 m²) in the hotel's own Conference Centre (3,500 m²) make the Brandlhof well equipped for any event. In addition, the 1,450m² tennis court can be converted into an exhibition area for a management meeting, product presentation, industrial exhibition, or major conference. Because meetings, conferences, and congresses are often accompanied by an exhibition or trade fair, the hotel also offers large areas available away from the seminar and meeting rooms. Several other locations in the hotel fit perfectly into the concept of many organisers: the B'350, B'140, and B'60 event rooms are stylish locations for evening galas, celebrations, presentations, live shows, or dance events. The "EventO" is an oval-shaped room for extraordinary events or spectacular presentations and is equipped with comprehensive event technology. The Brandlalm restaurant in the hotel and has features a rustic alpine style that is perfect for a rustic dinner or

reception. Those seeking an even more rustic atmosphere can go up to the hotel's own Wilderer Alm meadow, a former game feeding area just above the hotel. The brand-neutral automotive showroom also provides a unique venue – even for non-automotive events.

200 hotel rooms and suites as well as spa, beauty, and fitness facilities

The Brandlhof is one of the largest hotels in Austria with 200 hotel rooms and suites, a total of 440 beds, and apartments in the lodge. Six room types ranging from “medium double rooms” (25 to 30 m²) to various-sized suites (up to 95 m²) are available. Two thirds of the rooms are in an alpine style and one-third are in an urban style. It goes without saying that all the rooms and suites in the 4-star superior hotel are furnished to a high standard.

Anyone who dives into the Brandlhof's 3,000 m² Vivid Spa landscape of pools, saunas, and oases of tranquillity will recognise that they are in one of Europe's finest spa hotels. After treating yourself to an anti-stress massage or a beauty treatment after a long day of seminars, you are certain to feel like you are on cloud nine.

Those who prefer to work their muscles after working their brains can take advantage of the modern 350 m² fitness centre, which has a free weight zone with strength training equipment as well as a cardio training area with treadmills, [spinning] bikes, and Nordic walking machines, and a rest and exercise room.

Top-quality gourmet cuisine

The cuisine is another Brandlhof bonus. Seven different parlours – some alpine, some urban – and the large terrace provide the perfect setting for indulging in culinary delights. The Brandlhof team aims to serve outstanding gourmet quality to the guests by using fresh and local ingredients. In addition to the gourmet breakfast, lunch, and evening menus, the Brandlhof kitchen and service team also prepares a wide array of culinary specialties: break buffets, rustic evenings in the Wilderer Alm, exquisite dinners in the stylish B'350 event room, finger food flying buffets, gala menus for up to 700 people, and much more.

A unique balance between business and pleasure

In addition to its conference and meeting facilities, the Brandlhof scores high with its business customers thanks to the wide range of leisure and adventure activities that guests can usually enjoy without leaving the hotel complex. This is also why incentive events are often held at the Brandlhof.

Outdoor team building exercises on the hotel grounds are a welcome contrast to mentally challenging work in the conference rooms. The Challenge Zone – with various high and low rope elements as well as the giant swing and 3D hunting bow course – are ideal for this purpose. If you would like to invest in the driving safety of your employees, you can take advantage of the ÖAMTC Driving Technique Centre directly on the hotel grounds for hours of instruction and variety. The off-road park and forest courses as well as the go-kart tracks at the driving technique centre offer even more action and fun. In winter, there is a special course with natural ice runs for winter training, snowmobile rides, and go-kart races. The total area of 450 hectares around the hotel belongs to

the Brandlhof and offers plenty of room to move around and carry out even the most spectacular activities – from helicopter landings to extravagant off-road programmes with cars, motorcycles, or quads – all without disturbing the local residents.

The hotel has its own tennis courts (two indoor courts and one outdoor court), a multi-court for various ball sports, squash, bowling alleys, table tennis, billiards, and table football. From an athletic point of view, the hotel offers yet another kind of team-building event: golf tournaments in which all participants are accommodated in the same hotel directly on the golf course. These typically involve about 150 people. You and your guest(s) can spend the night comfortably in the Brandlhof, play on the hotel's own golf course, and enjoy an evening gala with award ceremony in the B'350.

Golf course adjacent to the hotel

Only very few Austrian hotels have their own 18-hole golf course right next to the hotel. The Brandlhof is one of these particularly privileged hotels. The 4-star Superior Hotel acts as the clubhouse for all golfing guests and offers every conceivable comfort. As an added benefit, hotel guests receive a 50% discount on the green fee and can keep their golf equipment in their own caddy room. The real jewel for golfers is the traditional yet challenging 18-hole championship course, which blends in beautifully with the landscape and spreads out along the Saalach, the river that shapes the valley and which must be crossed several times. An extensive driving range to practice putting, pitching, and bunker play completes the golf offer.

Just as important as a perfect course is an outstanding pro – in other words, a golf trainer who permanently helps golfers to improve their game. In this respect, the Gut Brandlhof Golf Club can boast a real golf guru: John Seymour, who heads up the local golf academy. The “old pro” ranks among the top 50 professionals in Europe; the British PGA has awarded him the title of “Advanced Fellow Professional”. His students at the academy are usually able to improve their game considerably.

For dog owners, the Gut Brandlhof Golf Club offers a unique training for dogs and therefore allows licensed dogs on the golf course – yet another good reason to choose the Brandlhof. The offer for golfers with dogs is extended by the Brandlhof electric golf cart with dog lounge equipment.

The “Golf Club Gut Brandlhof Indoor Golf Performance Centre” was developed in close cooperation between Brandlhof and golf pro Markus von Knoerzer.

Right next to the driving range with a fantastic view of the mountains, the *einkehr* | restaurant & lounge, which is open during the golf season, invites you to relax before, during, and/or after a round of golf.

The Brandlhof as a holiday hotel

About one quarter of the guests come to the Brandlhof with the sole purpose of enjoying a relaxing or adventure-filled holiday. The 4-star Superior Hotel therefore also prides itself in meeting the needs of these guests on holiday.

Guests at the Brandlhof highly value the fine rooms and hotel quality, the outstanding culinary delights at the gourmet breakfast as well as on the lunch and evening menus. They appreciate the highly committed and friendly employees. They are particularly enthusiastic about having almost exclusive access to the spa, fitness, and sports facilities for most of the day, while the business guests are occupied with activities in the seminar and conference rooms.

The hotel's own 18-hole golf course is the best argument for spending your free days at the Brandlhof in the summer months. The Championship Course along the River Saalach, the extensive driving range, and the Golf Academy led by golf pro John Seymour appeal to many guests. In addition to golf, the Brandlhof offers a wide range of recreational activities in spring, summer, and autumn: two indoor tennis courts and one outdoor tennis court as well as a multi-court for various ball sports. Nordic walking and running routes start directly at the hotel. The Pinzgauer Tauern cycle path leads directly past the Brandlhof. The region offers a wide range of hiking, mountaineering, and climbing opportunities within just a few kilometres. The Saalach, which flows past the hotel, is well stocked with fish. Between May and September, guests and holders of the Salzburg fishing card can fish for trout, char, and grayling.

In winter, holidaymakers appreciate the beauty of snow-covered nature, the tranquillity, and the opportunity to practise all kinds of winter sports in the immediate vicinity. Cross-country skiing trails through the Pinzgauer Saalach valley lead directly past the hotel, so guests can start winter hikes and snowshoe hikes right outside. Three world-class ski areas are within easy reach: Saalbach-Hinterglemm-Leogang-Fieberbrunn and Maria Alm-Hochkönigs (each 15 minutes by car) as well as Zell am See-Kaprun (25 minutes by car). Hotel guests can purchase lift tickets at the reception desk.

Families with young children can take advantage of family rooms with connecting doors, cribs, a baby monitor service, a kids' menu in the restaurants, a games room with table tennis and billiards, and a playground.

Hotel Gut Brandlhof – the facts

- The Brandlhof offers a range of business tourism services (seminars, conferences, and presentations as well as incentive events) that is unique in Europe. The needs of business guests have been considered down to the last detail.
